MIDLAND H5**C1208**

Midland introduces the first model of the **new generation of action cam**.

After the multi-year experience in this sector with the XTC models designed with a longitudinal shape, Midland presents the brand new **H line**, characterized by a frontal form factor, that completes the range of action cameras and covers all possible uses, such as the requirements of sportsmen or enthusiasts of outdoor activities.

H5 offers a lot for very little! Its **small dimensions** and its ease of use make H5 the perfect solution for your leisure time or a daily use.

Its form factor allows it to be easily worn for example on your chest.

Midland H5 guarantees high performances: **Full HD 30fps** with a sensor able to take top quality pictures up to **12MP**; the **built-in Wi-Fi** allows to watch and share your photos and videos, thanks to the **dedicated APP iSmart DV**, compatible with iOS or Android.

The **integrated 1.5" LCD display** allows to frame or watch your videos and photos without the need of a smartphone or a tablet.

The H5 is fitted with many innovative functions: **Self-timer** (you can select the time delay to shoot a photo), **Time-lapse**, **Photo burst** (to take 3/5/10 photos per second), **Motion detection** (the camera automatically starts recording when a movement is detected).

Besides, H5 **continuously records** and when the card is full, it records over the oldest videos; it is also equipped with the **Slow Motion** mode to watch the videos in rallenty.

H5 is supplied in a **full optional packaging including 20 accessories** to combine and create the best mounting solution for your requirements: the submersible case up to 30m depth, two interchangeable front covers (black and yellow), fixing systems for handlebars, helmets, with clip, adhesive, to take photos, self-timer, etc.

H5 is fitted with **140°** wide angle and image stabilizer for excellent shoots, even for your extreme adventures!

So, are ready to leave? Do not forget take a Midland action cam! For any kind of activities: diving, riding a motorbike, trekking, air-soft, hunting, skiing, surfing, off-road or simply with your friends!
